

Curriculum Map: PSHE, RSE, Come & See, and Science

From September 2020 the DFE has announced that PSHE will be statutory in all schools. At this moment in time the expectation is that as part t of the national curriculum framework that 'All schools should make provision for PSHE education, drawing on good practice'.

In the absence of a national programme of study from the DfE, PSHE Association, in consultation with a wide variety of agencies and practitioners, has produced a programme of study based on the needs of pupils in modern society. The programme of study has been designed to incorporate all of the statutory requirements set out by the DfE, and whilst being comprehensive, is not limited to just this statutory content.

At Saint Ambrose Barlow CPS we have designed a bespoke programme of study which is designed for the specific needs of our faith school, ensuring that our curriculum covers not only the aspects such as economic wellbeing, careers and enterprise education, but also includes personal safety, assessing and managing risks. The aim is to develop the knowledge, skills and attributes that pupils need to manage their lives, now and in the future, helping them to stay healthy and safe, empowering them to reach their full potential in life and the world of work. Throughout our curriculum work has been designed through the Catholic lens.

Our programme of study has been created in conjunction with our Come & See (Our R.E programme), A Journey in Love (Our R.S.E programme), as well as our Science curriculum, and have, through this curriculum map, identified how we uphold the statutory responsibility to support pupils's piritual, moral, cultural, mental and physical development and prepare them for the opportunities, responsibilities and experiences of life, underpinned by the Gospel Values of the Catholic Church.

Foundation Stage PSHE involves helping children to develop a positive sense of themselves, and others; to form positive relationships and develop respect for others; to develop social skills and learn how to manage their feelings; to understand appropriate behaviour in groups; and to have confidence in their own abilities.
